Setting the time and date

Pos. I Position of rest (watch running)

Pos. II Quick-change correction for date

Blocking time for the quick-change day correction

is from approx. 9.30 pm and midnight.

- Pull the crown out to position II (watch still running).
- Turn the crown until the current date appears.
- Push the crown back into position I.

Pos. III Setting the time

- Pull the crown out to position III (watch stopped).
- Turn the crown, until the current time is displayed (remember the 24-hour cycle).

- Push the crown back into position I.

Strap fitting/options

The Marquess models can be fitted with a leather, polymer or mesh bracelet strap.

With a 20mm lug width and 20mm spring bar fixing, straps are easily interchangeable using a forked spring bar tool. Many 20mm aftermarket straps are also compatible*

The Marquess straps exclusively available through nitewatches.com can be found here:

<https://www.nitewatches.com/store/us/straps/marquess>

**Nite Watches accept no responsibility with the sizing and fitting of any aftermarket straps.*
